### **SESSION TURNS WEAK AT CLOSE**

Final Prices of Market Are Materially Lower Than Best Figures.

BANK POSITION SOUND

Western Banks Forcing Farmers to Rush Their Wheat to Market.

(Special to The Times-Dispatch.)

New York, August 27.—Stocks were the infermer in the early trading today, but toward the middle of the session turned weak, and at the beginning of the last hour were materially under the best prices. Just before the close, however, a sharp rally carried them up to nearly the best figures of the day, and the closing showed net gains in the leaders. The best speculation was in Union Pacific, Reading and Steel. There has been heavy accumulation of these particular issues in the last week. Their sponsors seem willing to take a chance that the corn crop will not be seriously injured by frost, and the presidential speech-making in the Middle West is losing much of lis terror.

The bank statement showed a further loss of cash by the New York institutions and a loss of surplus reserves. The large increase of loans suggested some transferring in loans in the trust companies to the national banks, but also some stock market commitments by the big people. It can be said on high authority that the banks are not increasing their speculative investments in stocks, and that, therefore, the increased loan item cannot be due to the speculative market by the banking institutions. The saccumulation of stocks that has been done has been for investment account and for big firms.

Mach Apprehension.

Fire and frost joined with the nast week in depressing the stock market. None of these destructive elements caused any serious damage, but created much apprehension, they disturbed whith might otherwise have been an uneventful week. But even with these disturbances the market was very quiet, and no attempt was made to advance it arbitrarily or to raid it.

Forest fires that have raged in the Northwest are apparently under control. The Northwest foresis seem to be most severely hurt, but the damage there was not enough to cause any loss of earnings, for these forests are among the potential assets of the companies, and do not figure in reports as so many dollars.

No landication was seen in the week in

New York, August 27.—Money n call nominal; no loans, Time on call nominal no loans. Time loans very firm and dult; sixy days, 4; six months, 43-4. Close: Prime mercantile paper, 51-2 to 6 per cent. Sterling exchange steady, with actual business in bankers bills, at \$4.8356.\$\frac{1}{2}\$ \$4.8375 for sixty-day bills, and at \$4.8665 for demand. Commercial bills, \$4.836.\$\frac{1}{2}\$ \$4.8375 loans at \$4.836.\$\frac{1}{2}\$ \$4.8375 loa
